Andrea Shaper
Secretary

MISSION: The mission of Alpha Home is to offer a pathway of help, hope, and healing through spiritually based drug and alcohol treatment and support.

VISION: Our vision is a world in which recovery is always possible.

CORE VALUES: Spirituality, Compassion, Integrity and Respect are the core values we live by.

WHAT SERVICES DOES ALPHA HOME PROVIDE?

RESIDENTIAL PROGRAM

In a homelike setting, Alpha Home’s residential substance use treatment facility helps women, ages 18 and older, acquire the safe coping skills needed to lead a life of recovery. With a gender-specific focus, evidence-based curriculums to improve skills, and counseling support to address all aspects of the difficulties women face in their addiction.

OUTPATIENT PROGRAM

Alpha Home offers gender-specific Outpatient Treatment in San Antonio for both men and women. The average length of stay is four to six months and will vary based on individual client needs and circumstances.

FAMILY FIRST PROGRAM

All programs are uniquely designed to reduce stress and help families avoid the pitfalls of drug use/abuse or addiction. Family First offers innovative group sessions and activities to eliminate the stressors of life that we all struggle to conquer. We strive to empower participants to make healthy choices concerning themselves, their families and the community!

ALUMNAE NETWORK

The Alpha Home Alumnae Association is an all-volunteer organization whose mission is to assist and mentor women in recovery, to help women stay in recovery by providing resources to meet their recovery goals, to offer continued support through fellowship, and to present opportunities to serve and enrich their communities. Participation in the Alumnae Association enables our clients to remain connected to their “sisters” at Alpha Home. Alumnae also serve as sponsors to women still in treatment.

HELPLINE

In partnership with Rise Recovery, Lifetime Recovery, Pay It Forward, and United Way we have provided the Bexar County area with a 24-hour helpline for those seeking help with substance-related issues.
