INITIATIVES**★ Cite & Release**

Amend the *Texas Code of Criminal Procedure* to include additional low-level, non-violent criminal offenses where law enforcement may issue citations in lieu of making an arrest; allowing local law enforcement agencies to keep officers on the streets to respond to more serious crimes, all while reducing those who are placed in county detention facilities, which is an enormous savings to taxpayers.

★ Open Court

Amend the *Texas Estates Code* to clarify that open court shall include hearings via remote technology, which will maintain public access to these county-level courts for some of the most vulnerable in our community.

★ Parole Revocation Hearings

Amend the *Texas Government Code* to clarify what constitutes a new offense charge for paroled individuals. The Texas Board of Pardons and Paroles must dispose of a parole revocation warrant (blue warrant) within 41 days of its execution; however, the 41-day period does not apply when a parolee has been charged with a new offense. Additionally, the Board of Pardons and Paroles, the Department of Criminal Justice, and the Court of Criminal Appeals disagree on what it means to be charged with a new offense when an individual is on parole.

★ Student Expulsion

Amend the *Texas Education Code* to reclassify mandatory or discretionary conduct to category one and category two, respectively. The current conduct designations originally followed a zero tolerance policy of requiring schools to expel students for egregious conduct regardless of mitigating or extenuating circumstances. In a concerted effort to disrupt the school to prison pipeline, the legislature has since eliminated the zero tolerance approach, and the law now requires that school districts consider various factors for all expulsions, regardless of category. Reclassifying the conduct codes will alleviate the confusion and make it clear that zero tolerance expulsions are no longer authorized.

★ Vehicle Registration Fee Election

Amend the *Texas Transportation Code* to allow certain populous counties to seek voter approval to increase the additional vehicle registration fee in an amount not to exceed \$20.

POLICIES**★ Appraisal Caps**

Oppose the reduction of the residential homestead appraisal cap, which will shift the tax burden from high-growth areas to others who will assume the responsibility for the few who benefit.
