

“Uplifting the Human Spirit ”

WestCare is a national nonprofit organization that provides a wide spectrum of quality health and human services in a wide variety of environments. The range of WestCare programs across its 15 states, 2 US territories, and 2 republics is broad and deep. Evolving from its origins as a single therapeutic community for men addressing drug addiction, today, WestCare provides a myriad of programs for men and women, adolescents and families, and both yesterday and today's veterans. From outpatient and residential programs treating substance use and mental health disorders, to shelters providing services to those living with HIV/AIDS, domestic violence and homelessness, to programs within the criminal justice system, to programs interfacing with and/or incorporating primary care services, WestCare's four decades of growth has been predicated on meeting the need or filling the gap where real people need real help.

WestCare Texas - In December of 2016, WestCare Foundation introduced its services to the state of Texas. Through partnerships with various local community entities, we work together in ways that lead to improved behavioral health, empowered and sustained community residents, reductions in trauma. We provide services in both San Antonio and Laredo, Texas. WestCare Texas promotes the wellness and empowerment of individuals, families and communities through a variety of programs and services across the continuum of health and human services. Much of our work does not include providing direct client services; instead, we focus on building coalitions, designing, strengthening, and building capacity of community programs, partnership development, workforce training and development, recruiting and training volunteers, and launching new and innovative projects. With over four decades of experience, WestCare has the necessary expertise to be that resource for those in need of a wide variety of support services.

Programs and services include: COVID-19 Response and Digital Resource Center; Capacity-Building Training & Support; Mental Health Awareness & Advocacy; Trauma Informed Care and ACEs Training; Improvement in Community and Police Relations; Healing Hubs; Youth Leadership & Employment; Re-Entry Programs; Go-Team Crisis Intervention; Community Organizing and Neighborhood Engagement; Neighborhood Crime Prevention; Drug Free Communities; Youth Drug & Alcohol Prevention Education; HIV/AIDS Awareness & Testing; and Community Outreach.
